M30/P1 SINGLE DRILL PIER ANTI-RAM BOLLARD

Single Drill Pier with No Rebar, ASTM F2656-23, M30 - P1 CERTIFIED. Black Security Products, LLC. (BSP), has tested a single drill pier bollard that utilizes no rebar. The M30 Anti-Ram bollard is the most cost effective and easy to install bollard on the market. Streamlining installation by using the same auger on your skid steer as the fence line this bollard streamlines your crew's installation process. With being crash tested as a single unit, the M30/P1 bollard has no minimum or maximum allowable spacing for as-tested configurations.
